GAVOX

HIGHER, FARTHER, DEEPER

Armed Forces personnel, government officials and royalty across Europe and North America wear GAVOX, an upand-coming watch brand created in Belgium in 2011 by Michael Happé, grandson of one of the legendary Flying Tigers.

In 2014, GAVOX officially became supplier of the 15th Wing and the 350 Squadron, two Belgian Air Force squadrons. Since then, GAVOX has been producing custom references for more than 13 squadrons and is worn by more than 500 military pilots.

OUR MISSION

TO INVITE YOU TO EXPLORE

Easy to pronounce in every language, GAVOX is the contraction of the Ancient Greek word "galaxias" (our universe the Milky Way) and the Latin word "vox" (voice). The mission of Gavox (voice of our universe) is to create timepieces inspired by men and women who dare to go higher, farther and deeper.

Mission timer chronograph, avigation watch that doubles as a diving watch, state of the Art analogue computer watch... each GAVOX offers something special, unique and unexpected.

We hope that you enjoy perusing this catalogue and learning about our exciting brand!

Michael Happé, founder

The Gavox Stellar, Legacy and Power Reserve collections pay tribute to Dirk Harthog, the first European explorer to reach Australia. The designs captures in modern materials the spirit of marine chronometers from the 19th century.

The GAVOX philosophy - higher, farther, deeper - also involves making custom limited series with a custom dial and a numbered engraved case back.

Since 2014, we have been delivering more than 13 custom references to military squadrons, government officials, corporate professionals and clubs.
